Played on a grass field outdoors, Wisersport is a light exercise team sport with a focus on aim and strategy. The Wisersport sport originated as the most prestigious ball sport played in ancient palaces and royal courts by emperors, kings, ministers, officials and Western heads of state in order to cultivate the ability to strategize, exercise the body, and engage in a battle of wits. No experience necessary. Class content includes: introduction to Wisersport, how to play, aim and throw, game strategies, and playing real games. At the end of the class, we will form teams to participate in Wisersport tournaments.
